## Whisky Fact:

There's no such thing as a wrong way to drink whisky. Straight whisky is delicious. So is whisky with a little bit of ice, or a ton of ice. We love drinking whisky highballs with lots of soda and ice. Coke, sprite, whatever—all ways are equally valid. We're tired of listening to people tell others a "right way" to drink. Want to really impress your date? Don't tell them how to drink it, ASK them how they drink it. Listening is sexy, just a little free advice from us.
